*International Journal of Coal Geology*, 16 (1990) 351–353
Elsevier Science Publishers B.V., Amsterdam

# Contents Volume 16, 1990

*Special issue*
**Peat and coal: origin, facies, and coalification**, edited by PAUL C. LYONS, THOMAS G. CALLCOTT, and BORIS ALPERN

Introduction ..... ix

*Part I: Selected Papers*

Coal-forming plants through time in North America
Aureal T. Cross and Tom L. Phillips ..... 1
Petrology of some Permian coals of India
H.K. Mishra, T.K. Chandra and R.P. Verma ..... 47
Permo-Carboniferous paleogeography and coal accumulation and their tectonic control in the North and South China continental plates
Guanghua Liu ..... 73

*Part II: Introduction of Dr. Marlies Teichmüller* (keynote speaker)
Paul C. Lyons ..... 119

*Part III: Peat and Coal Facies*

Genesis of coal from the viewpoint of coal geology
M. Teichmüller ..... 121
Organics versus clastics: conditions necessary for peat (coal) deveopment
L. Courel ..... 125
The geology of selected peat-forming environments in temperate and tropical latitudes
C.C. Cameron, C.A. Palmer and J.S. Esterle ..... 127
On the use of modern tropical domed peats as analogues for petrographic variation in Carboniferous coal beds
J.S. Esterle and J.C. Ferm ..... 131

OPEN DISCUSSION ..... 137

The Changuinola peat deposit of northwestern Panama: a tropical, domed, back-barrier coal-forming environment
A.D. Cohen, R. Raymond, Jr., A. Ramirez, Z. Morales and F. Ponce ..... 139
The inorganic chemistry of peat from the Okavango Delta (fan), Botswana: implications for low-ash coal formation
T.S. McCarthy, J.R. McIver, B. Cairncross, W.N. Ellery and K. Ellery ..... 143
Relationship of megascopic coal types to quality variation within Eocene-age, Indonesian coal beds
T.A. Moore, J.C. Ferm and G.A. Weisenfluh ..... 147
Coal-forming peat plants and some associated floras, Devonian to Tertiary, North America
A.T. Cross and T.L. Phillips ..... 150

From plants to coal: peat taphonomy of Upper Carboniferous coals
T.L. Phillips and W.A. DiMichele ..... 151
Applications of tonsteins to coal geology: some examples from western United States
D. Triplehorn ..... 157
Formation of coals on wave-dominated strandplains
D.A. Leckie and W. Kalkreuth ..... 161
An Appalachian-sourced deltaic sequence, northeastern Alabama, USA: biofacies-lithofacies relationships and interpreted community patterns
R.A. Gastaldo, M.A. Gibson and T.D. Gray ..... 163
Thrust-ridge paleodepositional model for the Upper Freeport coal bed and associated clastic facies, Upper Potomac coal field, Appalachian Basin, U.S.A.
E.S. Belt and P.C. Lyons ..... 167
Sedimentary dynamics in French coal-measures reconstituted by decompaction and litho-/bio-facies analysis
E. Salinas, B. Beaudoin, I. Cojan and D. Mercier ..... 171
Tectono-sedimentary settings and controls of the Karoo Basin Permian coals, South Africa
B. Cairncross ..... 175
Permo-Carboniferous paleogeography and coal accumulation in North China and South China continental plates
Guanghua Liu ..... 179
Study on lithofacies paleogeography of Zhungeer coal field and its methodology in Inner Mongolia of China
Liu Huanjie, Jia Yuru, Long Yaozhen and Wang Hongwei ..... 181

*Part IV: Sulfur and Trace Elements in Coal*

Sulfur sources and sulfur bonding of some central European attrital brown coals
P. Adolphi, M. Störr, P.G. Mahlberg, H.H. Murray and E.M. Ripley ..... 185
Chemistry and origin of minor and trace elements in selected vitrinite concentrates from bituminous and anthracitic coals
C.A. Palmer and P.C. Lyons ..... 189

*Part V: Geochemical, Coal Petrologic, and Coalification Studies*

Organic geochemical studies of the transformation of gymnospermous xylem during peatification and coalification to subbituminous coal
P.G. Hatcher, H.E. Lerch, III, and T.V. Verheyen ..... 193
Paleoecological trends and petroleum potential of Upper Carboniferous coal seams of western Germany
R. Littke, H. Lo ten Haven and D. Leythaeuser ..... 197
Reflectance anisotropy of Carboniferous coals in the Appalachian Foreland Basin, Pennsylvania, U.S.A.
J.R. Levine and A. Davis ..... 201
Studies of angiospermous woods in Australian brown coal by nuclear magnetic resonance and analytical pyrolysis: new insight into early coalification
P.G. Hatcher, M.A. Wilson, M. Vassallo and H.E. Lerch, III ..... 205
Petrology of some Permian coals of India
H.K. Mishra, T.K. Chandra and R.P. Verma ..... 208
Rank evaluation of south Brazilian Gondwana coals on the basis of different chemical and physical parameters
Z.C. Corrêa da Silva ..... 209

Distribution and coalification patterns in Canadian bituminous and anthracite coals
P.A. Hacquebard and A.R. Cameron ..... 211
Semianthracite, anthracite and meta-anthracite in central Canadian Cordillera: their geology, characteristics and coalification history
R.M. Bustin and I. Moffat ..... 214
Effects of thrust faulting on organic maturation in the southeastern Canadian Cordillera — field evidence and theoretical considerations
R.M. Bustin and T.D.J. England ..... 217
Regional coalification of Lower Cretaceous coal-bearing strata, Rocky Mountain Foothills and Foreland, British Columbia and adjacent parts of Alberta, Canada
W. Kalkreuth, W. Langenbert and M. McMechan ..... 219
Geological information obtained from coal and coalified dispersed organic matter in the Tertiary system of Japanese Islands
A. Aihara ..... 221
Effect of coalification on spontaneous combustion of coals
D. Chandra and Y.V.S. Prasad ..... 225
Simulation of natural coalification by high-pressure pyrolysis
P. Landais, M. Monthioux and B. Poty ..... 230
Tectonic influence on vitrinite reflectance
M.F. Middleton ..... 235

*Research Papers*
Cretaceous and Eocene lignite deposits, Jackson Purchase, Kentucky
J.C. Hower (Lexington, Ky., U.S.A.), F.J. Rich (Rapid City, S.D., U.S.A.), D.A. Williams (Henderson, Ky., U.S.A.), A.E. Bland and F.L. Fiene (Lexington, Ky., U.S.A.) ..... 239
Paleoecological interpretation of a Middle Pennsylvanian coal bed in the central Appalachian basin, U.S.A.
C.F. Eble (Reston, Va., U.S.A.) and W.C. Grady (Morgantown, W. Va., U.S.A.) ..... 255
Petrology, depositional environment and utilization potential of Late Paleocene coals from the Obed-Marsh deposit, west-central Alberta, Canada
T. Gentzis (Devon, Alta., Canada) and F. Goodarzi (Calgary, Alta., Canada) ..... 287
Geochemistry and sedimentology of coal seams from the Permian Witbank Coalfield, South Africa; a means of identification
B. Cairncross and R.J. Hart (Johannesburg, South Africa), and J.P. Willis (Rondebosch, South Africa) ..... 309
A review and interpretation of evidence concerning the origin of Victorian Brown Coal
K.B. Anderson (Argonne, Ill., U.S.A.) and G. Mackay (Howard St. Richmond, Vic., Australia) ..... 327

Erratum ..... 349

Contents Volume 16 (1990) ..... 351
